

## What is Select & Go?

At Avis, we are always looking for new ways to make the car rental experience more enjoyable for our customers. *Avis Preferred Select & Go* gives our customers the power to select the vehicle that's right for them and their trip. Our customers have the control to **select** the car they want and **go!**

## How Does It Work?

Customers have three options when they reserve a mid-sized car or larger:

1. **Keep** their pre-assigned vehicle
2. **Select** a different vehicle from the exchange area at no additional cost
3. **Upgrade** their rental for a fee

All of these options are available without having to visit the rental counter.

*Avis Preferred Select & Go* will be available at the locations below in North America by end of summer 2012.

**Additional locations to come by end of 2012.**
